1 OF 4 WHAT HAPPENED: IS REVENUE GROWING?

Revenue rose 2.7% in 2011, all of it in the autumn gift season: fewer orders but each one bigger

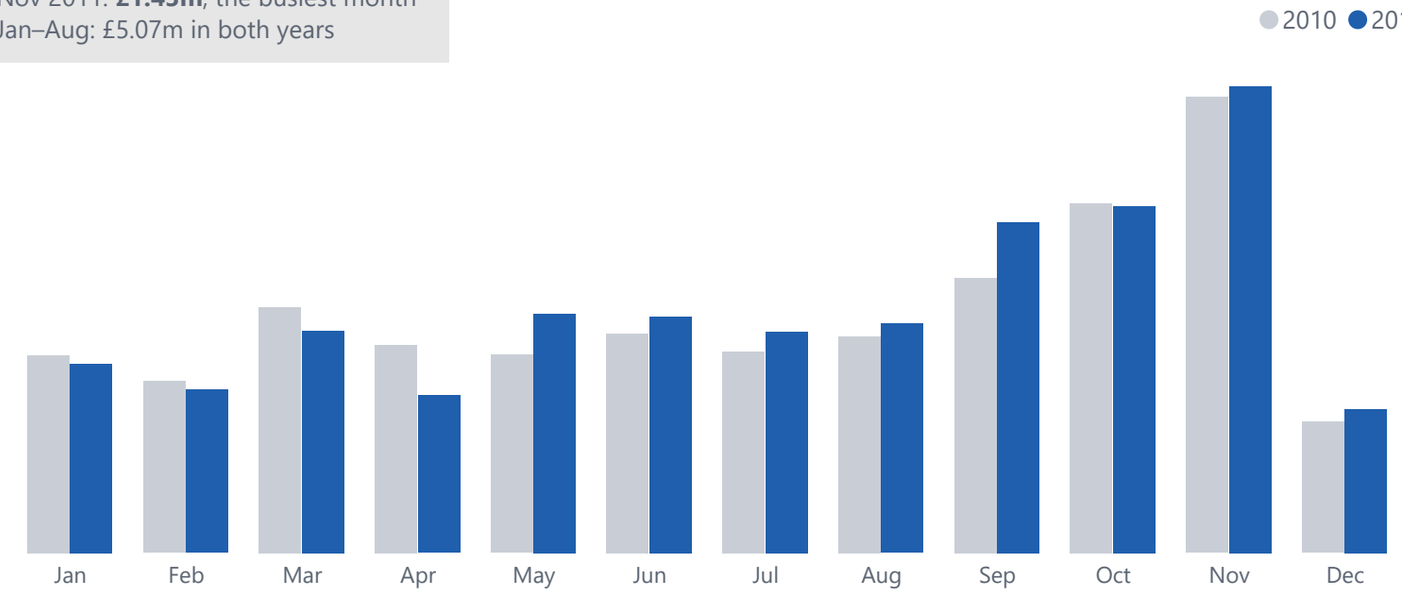

Year: 2011 | All

Total revenue	Total orders	Average order value	Customers who bought	Cancellation rate
£9.01M	18,916	£500.72	4,215	4.8%
▲ 2.7% vs 2010 (£8.78m)	▼ 4.9% vs 2010 (19,885)	▲ 10.5% vs 2010 (£453)	▲ 1.0% vs 2010 · 64% ordered again	Up from 2.5% in 2010

January–August was flat; September–November grew 6%

Revenue by month

Nov 2011: **£1.43m**, the busiest month
Jan–Aug: £5.07m in both years

Sep–Nov: £3.50m in 2011 vs £3.31m in 2010 (+6%). Each month compares the same dates, so December covers 1–9 Dec in both years.

Where revenue comes from

41 countries outside the UK

What the next pages show:

2 · WHERE
22% of products bring 80% of revenue →

3 · WHO
16% of customers bring 54% of revenue →

3 · AT RISK
327 high-value customers have stopped buying →

4 · TRUST
Every row accounted for, difference 0 →

So what: growth depends on the autumn peak and on bigger orders from fewer buyers. **The next pages show who and what drives it →**

2 OF 4 · WHERE THE MONEY COMES FROM: WHICH MARKETS AND PRODUCTS?

The UK brings 85% of revenue and Ireland leads abroad; 22% of products bring 80% of revenue

Sales outside the UK
14.5%
£2.75m from 41 countries

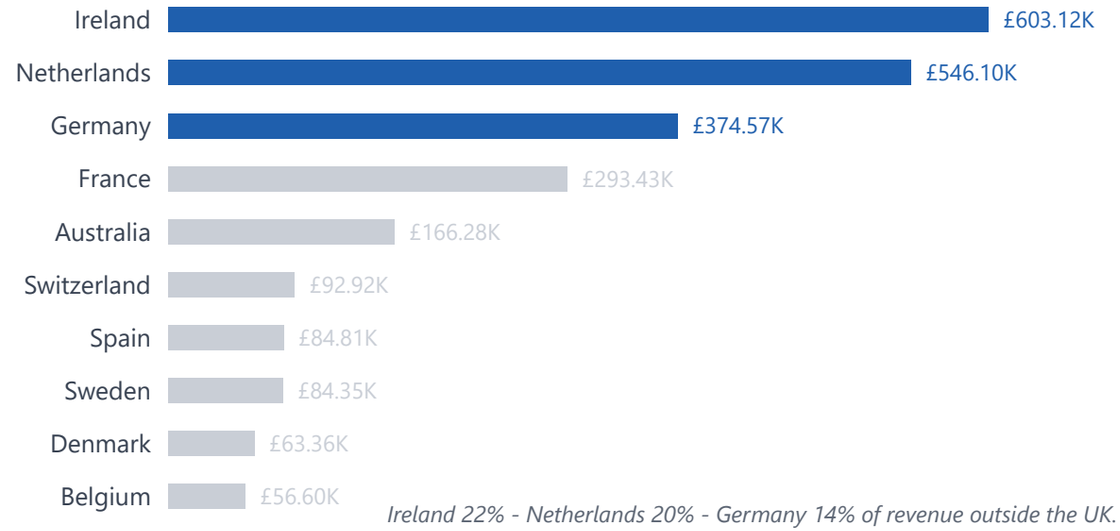

Top market abroad
Ireland
£603k · 22% of revenue outside the UK

Products sold
4,802
Stock codes with sales, fees excluded

Best sellers (class A)
1,038
22% of products, 80% of revenue

Three countries make 55.4% of revenue outside the UK

Top 10 countries outside the UK, net revenue

Ireland 22% - Netherlands 20% - Germany 14% of revenue outside the UK.

So what: keep the 1,038 best sellers in stock, grow Ireland, the Netherlands and Germany, and find out why two big orders were cancelled. **Next: who buys all this →**

A small share of products brings most of the revenue

Class A: 1,038 products, £15.1m. Class C: half of all products, only 5% of revenue.

Two products make a third of all cancelled value

Product	Class	Cancelled	% of sales
PAPER CRAFT , LITTLE BIRDIE	C	£168,469.60	100.0%
MEDIUM CERAMIC TOP STORAGE JAR	A	£77,479.64	94.8%
REGENCY CAKESTAND 3 TIER	A	£16,545.30	5.0%
WHITE HANGING HEART T-LIGHT HOLDER	A	£9,387.10	3.6%
COLOUR GLASS. STAR T-LIGHT HOLDER	A	£7,164.12	16.0%

£246k of £716k cancelled. Both were cancelled almost in full: check the orders behind them.

3 OF 4 · WHO BRINGS THE MONEY: WHICH CUSTOMERS MATTER, AND WHO ARE WE LOSING?

16% of customers bring 54% of revenue, and 327 of our best customers have stopped buying

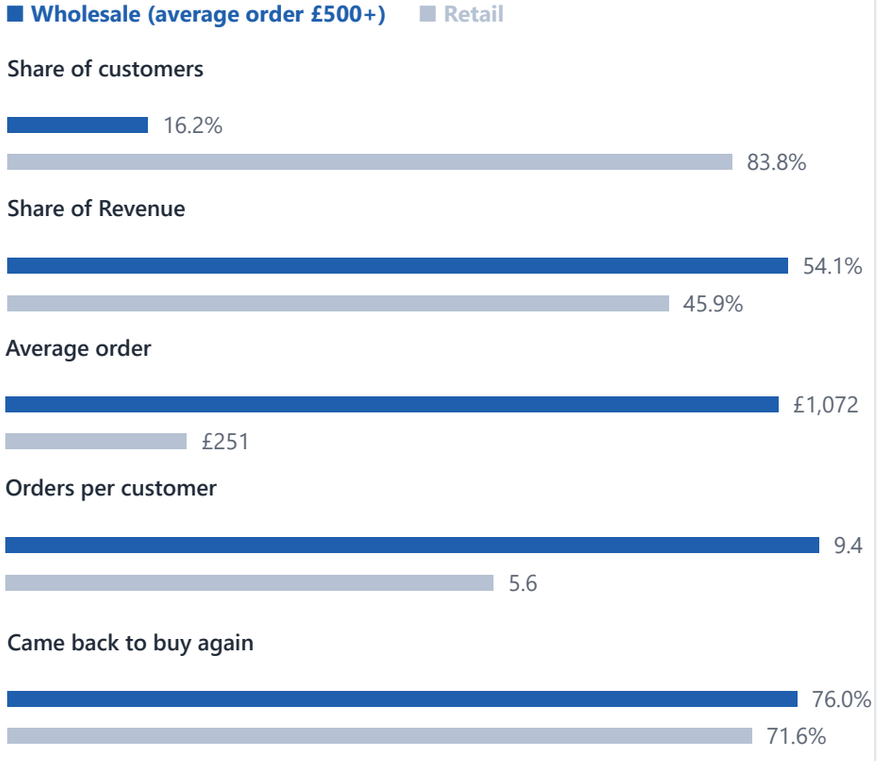

Customers who bought
5,853
Customers we can identify

Came back to buy again
72.3%
4,234 customers with 2+ orders

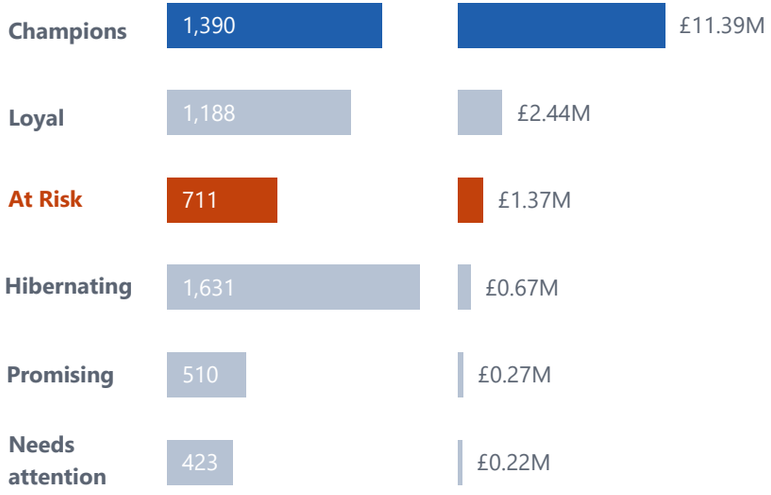

Revenue from wholesale customers
54.1%
They are 16.2% of customers

Customers to win back
327
Bought often, spent a lot, then went quiet

Wholesale customers order 4× bigger and 1.7× more often

1 in 4 customers (Champions) bring 70% of known-customer revenue

At risk: 711 customers (£1.37m) used to buy often but have gone quiet. The 327 biggest spenders among them hold £1.09m: they are the call list.

Call these customers first

Sorted by money spent. Use ... → Export data to download ...

Customer	Segment	Orders	Spent	Last P
Customer 16754	Wholesale	29	54,692.82	12/2/
Customer 13093	Wholesale	55	53,283.30	3/9/2
Customer 17850	Retail	155	50,407.77	12/2/
Customer 13902	Wholesale	5	30,375.26	3/17/
Customer 12482	Wholesale	27	21,941.72	5/12/
Customer 15749	Wholesale	3	21,535.90	4/18/
Customer 15808	Wholesale	21	17,038.95	2/6/2
Customer 13564	Retail	36	15,613.10	12/20
Customer 17448	Retail	41	14,375.01	6/28/
Customer 18087	Wholesale	16	13,563.62	2/22/
Customer 13952	Wholesale	14	12,790.89	5/6/2
Customer 14134	Wholesale	15	11,123.35	11/22

So what: give the biggest wholesale customers a named account manager, and contact the 327 lapsed customers before they are gone for good.

Next: can we trust these numbers? →

4 OF 4 · WHY YOU CAN TRUST THIS: HOW RELIABLE ARE THESE NUMBERS?

Every row is accounted for: 1,067,371 received, 1,029,620 used, and each of the 37,751 removed has a recorded reason

Rows received
1,067,371
From two source files

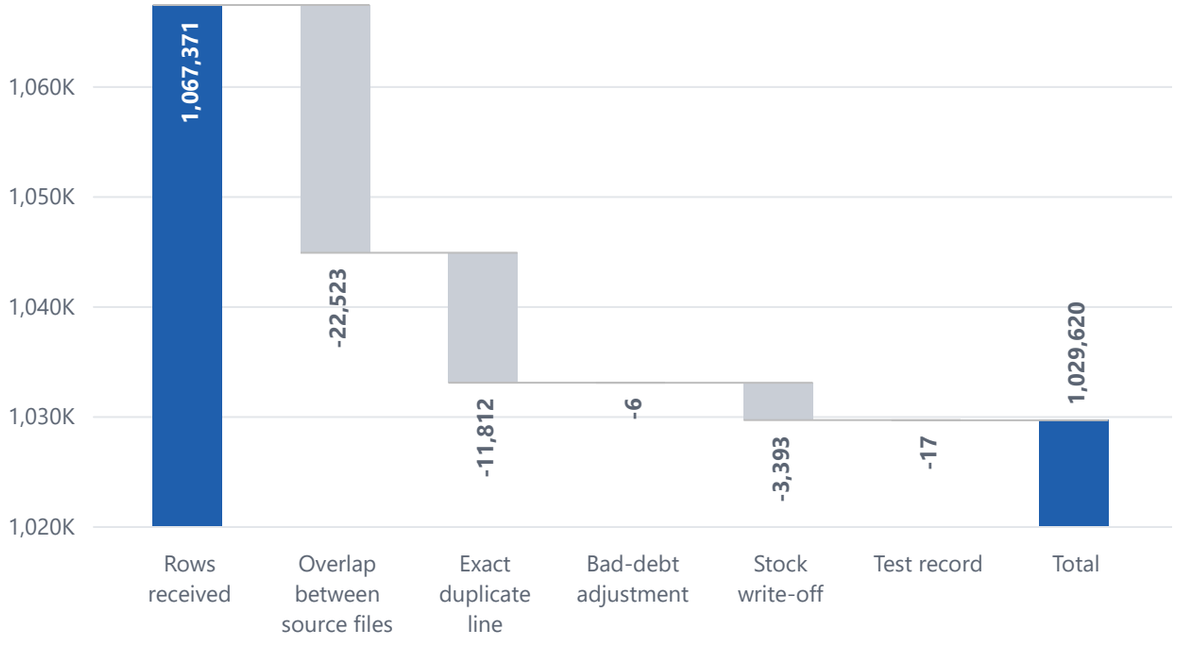

Rows removed
37,751
3.5% of rows · 91% were duplicate copies

Rows or pounds lost
0
Checked at every step, every run

Last refresh
30 s
One command · run 13 succeeded

Most removed rows were copies: the two files overlapped by 9 days

Axis starts at 1.02m so the small steps are visible

This report matches the database to the penny

Number	Report	Database	Match
Product revenue	£18,927,399.07	£18,927,399.07	Same
All sales lines	£19,002,944.28	£19,002,944.28	Same
Customers who bought	5,853	5,853	Same
Came back to buy again	4,234	4,234	Same
Rows used	1,029,620	1,029,620	Same

Three limits to keep in mind

1. 13.6% of product revenue has no customer ID. It counts in revenue, but not in customer analysis.
2. "Wholesale" means an average order of £500 or more. The data does not say which buyers are businesses.
3. "Stopped buying" is measured up to 9 Dec 2011, the last date in the data.

So what: every number on pages 1–3 traces back to a source row, and the known gaps are stated here, not hidden.
